Subject: Atlantic Coast Pipeline Project Update: Nov. 29, 2017

**Atlantic Coast Pipeline Project Update
Nov. 29, 2017**

- On Nov. 28, the Division of Water Resources issued a fourth letter to Atlantic Coast Pipeline, LLC requesting additional information for the company's application for a state 401 water quality certification.
[Nov. 28 Additional Information Letter](#)
- On Nov. 27, the Division of Energy, Mineral and Land Resources received the additional information that had been requested for both of the required general stormwater permit applications. Review of the stormwater permit applications is expected to begin next week.
[Cumberland County Stormwater Permit Application](#)
[Nash County Stormwater Permit Application](#)
- The public comment period for the air quality permit for the Northampton County Compressor Station closed Nov. 20. By law, the Division of Air Quality has 30 days from the date of the public hearing to make a permitting decision, which is a deadline of Dec. 15.
- Following the Nov. 6 disapproval of the project's sediment and erosion control plans, Atlantic Coast Pipeline, LLC submitted additional information on the plans to the Division of Energy, Mineral and Land Resources. Review of the updated plans is nearly complete.

More Information

Information on the pipeline project's environmental review process is regularly updated on the DEQ website: <https://deq.nc.gov/about/divisions/energy-mineral-land-resources/acp>. Please feel free to share this update with other interested parties who may wish to have more information on the Atlantic Coast Pipeline project.
